

# Turn market knowledge into *market wisdom*

Through client engagements, **Termine Group** supports management by

Conducting market research and analysis to support growth

Identifying opportunities to expand client's position in its markets

Managing portfolios and technology assessment initiatives

Recommending strategy to establish priorities in new product development, joint ventures, and potential acquisitions or divestitures

Monitoring global industries and markets to identify opportunities and mobilize a competitive advantage

Participating in the business planning process through the preparation and analysis of strategic alternatives and capital requests

Assisting in communication of corporate strategy

Evaluating current strategic positions, such as new business opportunities, portfolio adjustments, new technology, or dispositions that are consistent with corporate objectives

*a management consulting firm specializing in strategic development*

We provide *insight* that is  
***clear, focused, and useful***

TERMINE GROUP is a management consulting firm specializing in strategic development. We apply our collective experience and knowledge to assist clients in taking decisive action to improve their business performance. We are located in Baton Rouge, Louisiana, USA, and have access to associates working out of offices in Los Angeles, New York and London.

Our clients range in size from multinational and Fortune 500 chemical companies to small and medium sized privately held businesses. We offer personalized services that are responsive, flexible and customized to the needs of our clients. We use project leaders with strong financial and operational backgrounds and subject matter experts in the technology or markets related to each engagement. TERMINE GROUP provides insight that leads to effective decision-making. We support our recommendations with quantitative evidence and sound logic.

TERMINE GROUP studies our clients' businesses, identifies their goals, develops strategies jointly, and executes those strategies in a fast, flexible and confidential manner. We strive to make our communications clear, focused and useful.
